FRIDAY, MAY 1, 1914

The trouble with Mexico has reached the watching and waiting stage. Public interest just now centers in Colorado mining troubles.

Central standard time is about 38 minutes slower than sun time and East standard time about 22 minutes faster than sun time.

Canfield is in the belt of Northeastern Ohio cities and towns that have adopted Eastern standard time, effective May 1, and this village might just as well get into the swim.

Warren Poe Thomas of Warren has announced his candidacy for the republican nomination for congress in this district. He is likely to be the only candidate presented by Trumbull county.

Mexico has an area of 565,535 square miles and has a population of 15,063,207, only 29 per cent of which is white. There are 30,000 Americans, 5000 British and 5000 Germans permanently located in Mexico.

The democratic Lisbon Patriot remarks that if all sections of Ohio are like Columbiana county, John J. Whitacre's vote will be four to one against the governor. Unless all signs fail it is certain that Gov. Cox will be a down and out politician after the August primaries.

A broken arm may keep attorney D. F. Anderson of Youngstown out of the race for the republican nomination for United States senator. But there will be other candidates in the chase and some of them are certain to have broken hearts after the contest is over, and that will be harder to put up with than a broken arm. But either is easier to nurse than a broken head.

Continental United States now has a population of more than 98,000,000 people. With its possessions, the United States has a population of more than 109,000,000 people, as against nearly 102,000,000 in 1910. The population of continental United States in 1910 was 91,972,266. Ohio's total population is 5,026,898. Cleveland has a population of 532,431, cities of the United States.

As the Dispatch predicted, Gen. Cox does not find anything like the interest of twenty years ago manifested in the hike of a ago man-army to Washington. When he reached Pittsburgh, he himself and a handful of men were hardly ever, when he continued his march toward the city. When he entered the city, he was met by a throng of people who were waiting for the patriotic welcome. He learned that the decorations in honor of Andrew Carnegie and Charles M. Schwab, who were visiting the Pittsburgh district, that about the nearest the general and his army have come to attracting attention since they left Massillon.

YOUNGSTOWN

The new ordinance keeping automobiles out of the congested parts of the city becomes effective Friday.

Three boys who confessed that they had been taking automobiles belonging to other people to Jeyr's were sent to the Reformed farm by Judge J. W. Davis.

Dr. S. R. Frazier, prominent for years in the religious and social uplift life of the city, died Wednesday morning, aged 69. Funeral Saturday afternoon.

Eastern standard time goes into effect in this city Thursday night. It is expected that it will be generally used throughout the city.

Duncan Hogg, long a resident of this city, died Tuesday, aged 74. The chamber of commerce is making an effort to have a U. S. cruiser named after this city.

The capital stock of the Youngstown Iron & Steel Co. has been increased from \$1,200,000 to \$3,000,000. The plant is to be greatly enlarged.

Court of common pleas has adjourned for the January term, but the May term begins next Monday.

William Bakody's sale of Holstein cattle near Lanterman's Falls Monday was the largest ever held in this county, the sale amounting to about \$26,000. One bull sold for \$2,600 and cows brought hundreds of dollars apiece.

Tuesday morning Mrs. Wm. Bakody was thrown from her carriage near her home at Lanterman's Falls, when her horse ran away, and her left leg was broken and she was otherwise painfully injured.

REVIEWING THE RECORD

Here and there some visionary still raises a small, distressed voice to proclaim that there would be no trouble in Mexico if President Wilson had recognized Huerta. For the sake of keeping the record clear, it is worth while to review once more the reason why such a recognition is impossible.

Prior to Feb. 8, 1913, there was a government in Mexico recognized by all civilized powers, our own among the number. The head of that government was Francisco Madero, president of Mexico. There was also in the Mexican capital one H. L. Wilson, ambassador from the United States; there was in jail one Felix Diaz, who had made an abortive effort to overthrow the Madero regime, and there was in command a part of President Madero's forces at the capital one Victoriano Huerta.

Diaz broke jail and fighting beggars, Huerta was sent to crush the rebel with ample forces to carry out his commission. Enter then the American ambassador, H. L. Wilson. According to his own public boast, Mr. Wilson "brought Diaz and Huerta together." As a result of that coming together, Huerta turned traitor, joined forces with Diaz, overthrew the lawful government of Mexico, seized supreme control, and completed his list of crimes by causing the murder of his former friend and president, Francisco Madero.

These things were done as the result of an intrigue in which the American ambassador bore a prominent part. For the United States to have recognized Huerta would have been accepted by the world as proof that the American government had directed the movements of its minister. It would have been taken as proof that the United States had conspired to set up in Mexico a government which depended for its existence on the favor of the Washington administration, and that this country did not hesitate even at murder to accomplish its ends.

Is there an American citizen who is willing to have such a belief go forth concerning his country? Other governments could view the mode of Huerta's rise to power with indifference—their ambassadors had not aided that rise. The government of the United States was obliged either to discover the dictator, or accept responsibility for his deeds. The verdict of all thoughtful citizens must be that President Wilson chose the right alternative.—Houston Post.
